Summary

Results-driven Full-Stack Developer specializing in the MERN stack, with experience building production-ready web applications and backend systems. Developed secure RESTful APIs, optimized data workflows, and enhanced dashboard performance during a real-world internship. Focused on scalable architecture, clean code practices, and delivering user-centric features. Actively preparing for full-time software engineering opportunities in 2026.

Education

B.Tech in Computer Science and Engineering, Priyadarshini Bhagwati College of Engineering, Nagpur Aug 2023 – Present
Diploma in Mechanical Engineering, Puranmal Lahoti Govt. Polytechnic, Latur Dec 2020 – Jun 2023

Internship Experience

MERN Stack Developer Intern, [at Amika Softwares], (Onsite) June 2025 – July 2025

- Collaborated within a 4–5 member development team to enhance a Hospital Management System (IPD, OPD, EMR modules).
- Designed and developed RESTful CRUD APIs for dynamic certificate generation and database management using Node.js and MongoDB.
- Refactored 1000+ line legacy frontend files into modular, reusable React components, improving maintainability, reducing redundancy, and enhancing dashboard performance..

Projects

Writeflow – Where ideas flow (MERN) Writeflow – Where ideas flow

- Engineered a scalable full-stack blogging platform with secure authentication (JWT + Google OAuth) and role-based protected routes.
- Designed and implemented RESTful APIs for blogs, comments, likes, notifications, and user analytics using Node.js and Express.js.
- Integrated EditorJS for block-based rich text content creation with dynamic publishing workflows.
- Built author dashboards to manage drafts, published posts, and engagement metrics.
- **Tech:** React.js, Tailwind CSS | Node.js, Express.js | MongoDB **Repo Links:** Frontend | Backend

Digital Classroom (MERN) Digital Classroom

- Developed a full-stack digital learning platform supporting distinct student and teacher roles with secure JWT-based authentication.
- Designed and implemented RESTful APIs for course management, assignment uploads, and submission tracking.
- Created responsive UI components using React and Material UI for an intuitive user experience.
- Deployed production-ready application on Vercel with environment-based configuration and optimized frontend build.
- **Frontend:** React.js, Material UI | **Backend:** Node.js, Express.js | **DB:** MongoDB **Repo Links:** Frontend, Backend

Certifications

Oracle Cloud Infrastructure 2025 – AI Foundations Associate
Issued by Oracle
Issued: October 25, 2025 **Expires:** October 25, 2027
Verification: View Certificate

Skills

- **Languages:** JavaScript (ES6+), Java
- **Frontend:** React.js, Tailwind CSS, Material UI, HTML5, CSS3
- **Backend:** Node.js, Express.js, RESTful API Design, JWT Authentication
- **Database:** MongoDB
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Render
- **Others:** Responsive Design, DSA Basics
